

Plot TitleのOn/Off (Qual-3)

The screenshot shows the 'Plot Display Options' dialog box in the Agilent Mass Hunter software. The 'Tools' menu is open, and a blue arrow points to the 'Plot Display Options...' option. The dialog box is open, and the 'Expanded (with ionization, fragmentor voltage and collision energy)' checkbox under the 'Plot titles' section is highlighted with a red circle. A callout box with Japanese text points to this checkbox.
